An Overview of my Toolbox

Clément Robert

Who's that guy ?

- Clément Robert (@neutrinoceros)

- I'm a research software engineer,
  currently working for the **Astropy** Project

- Also a hobbyist maintainer on several Python packages,
  most notably **h5py** and **yt**

- I did a post-doc with Geoff during which I developed a
  particle module for **Idefix**

Me, but with hair

My tools

- **`idefix-cli:`** A high level CLI for the forgetful and lazy (me)

- `inifix:` read inifiles as Python dictionaries (and the way back)
